## Dear Adventurers,

*Every once in a while, life gifts us with stories that weave through our being, becoming a part of who we are and how we see the world. My story, rich with salt air, began in the lush landscapes of Washington State, where boats were not just transportation but gateways to adventure. From a young age, I learned the value of hard work—restoring our wooden tug not just as a project, but as a rite of passage into a life irrevocably tied to the water.*

*My journey through the world of maritime adventure began with the Sea Scouts, where leadership and the love of the sea propelled me from Regional Boatswain to National Boatswain Mate by the age of 16. By 18, I held my Ship Master's License—answering the call of the ocean that I couldn't ignore.*

*From the captain's seat of sightseeing vessels in Glacier Bay, Alaska, to the executive offices of Cruise West, and eventually leading American Safari Cruises through transformation into UnCruise Adventures, my life has been a narrative of exploration and the relentless pursuit of adventure. It's a journey that has not only taken me across the globe but has allowed me to share this passion with fellow explorers, like you.*

*The honor of being adopted into a native Tlingit tribe stands as a testament to the deep connections formed through a life spent in reverence of nature's majesty and the diverse cultures that enrich our world. As I share this journey with you in our brochure, it's more than an invitation to travel; it's a call to adventure, to discovery, and to understanding.*

**The sea calls, and together, we answer.**

*- Captain Dan Blanchard*

# A CULINARY JOURNEY

## Through Local Waters & Lands

### Embark on a Culinary Adventure

At UnCruise Adventures, we believe that the essence of exploration extends beyond the horizon to the very plates served on our small ships. Our culinary program is a journey into the heart of the destinations we visit, crafted to complement the day's adventures, whether it's kayaking around glaciers or basking in the sun on deck.

### Locally Inspired, Sustainably Sourced

In Alaska, our flagship destination, the catch of the day sails directly from local waters to your plate. Our partnership with Harbor Banks and Alaska Glacier Seafoods ensures that the Dungeness crab, sockeye salmon, and other seafood delights gracing your table are not only fresh but certified sustainable, reflecting our commitment to the oceans and the local communities.

### Farm to Table, Sea to Plate

Our culinary palette is enriched by the vibrant flavors of the lands we explore. From the Ola Mahina Gardens in Kona, run entirely by women, to the cooperative efforts of El Chinal in Baja, we source organic produce that tells a story of locality and care. Each dish, whether it's a warm kale and black lentil salad topped with freshly caught salmon or the crunch of a radish in a light, saffron-infused oil, is a testament to the lands and seas we traverse.

### A Spice of Creativity

In partnership with Spiva Spices and Tea, our chefs add a touch of the Northwest's bold flavors to each meal. Freshly ground spices and inventive, small-batch teas enhance the culinary experience, making each dish not only a meal but a moment to remember.

### Culinary Excellence, Ethical Essence

Behind every bite is our ethical promise - to serve seafood that's good for the oceans, produce that supports local farms, and a culinary experience that respects the planet. It's a promise that ensures the beauty of Alaska, Hawaii, and Baja is savored in every dish and preserved for future adventurers.

# SUSTAINABILITY

Traveling by small vessel enables us to get up close to nature and wildlife in some of the most scenic areas of the world. While delivering exceptional access to these areas,

WE REALIZE OUR PRESENCE HAS AN IMPACT AND FOSTER RESPONSIBLE PRACTICES TO LESSEN OUR ENVIRONMENTAL FOOTPRINT

from replacing engines for more efficient models to making arrangements in each port for recycling and proper disposal of waste. Our teams on board and ashore work together to operate responsibly.

A key part of operating a responsible business is ensuring we leave a positive impact in the communities we visit. This core value is part of our initial itinerary planning on through to operations management and office practices. Whether it's a cruise donation to an organization for a fundraising effort or partnering with locals for tours,

WE LOOK FOR WAYS TO SHARE THE WEALTH AND ENRICH THE LIVES OF THOSE WE MEET.

*With a strong commitment to sustainability and environmental stewardship, UnCruise Adventures offers an immersive and responsible adventure travel experience.*
